

Two-Factor Authentication

A two-factor authentication is implemented for users logging in to IDEP.WEB in order to enhance login security.

When logging in you will be asked to confirm your email-address. Please look below.

The image displays two screenshots of the IDEP.WEB login interface. The left screenshot, titled "Please log-in", shows a login form with fields for "User Name" (containing "55.."), "Password" (containing "...."), and "Email Address". Below the email field, there is a checkbox labeled "Check this box to skip email-authentication." and a message stating: "You will be requested to carry out email-authentication at least once every 20 days, therefore this option may not apply until you have successfully logged in." A "Login" button is at the bottom. The right screenshot, also titled "Please log-in", shows the confirmation screen. It displays a message: "An email with a one-time access link has been sent to 'Ad ... eh@Sc ... se'." followed by instructions: "Please check also your junk email folder. You may now close this browser window. You will need to come back to this same browser within 30 minutes to complete the process. Therefore, we recommend that you keep this browser open (you may close this browser window though)."

Thereafter, an email like the one below will be sent to your email-address that includes a link that will take you further to IDEP.WEB.

Dear

This is the IDEP.WEB login verification for user ID: 202100083755, do not reply to this email.

Simply click the link below:

[Complete your log in process](#)

You can also copy this link <https://staging.idep.scb.se/idepWeb/Secure/Login.ashx?ID=gAHd2RrKgf9h%2B4zBcDOI9eCa1EIIMgAeLI7n668SY0U%3D&l=EN&zt=7AE63FDD&sid=k2yzimr2uzygmmbeuxpiaord&eo=bLafIV1dO3LqDsnmmiwXU4Q8HnrzV4nmwGbRH1obfuoDKXWICXUsOrhtQy8H1SozE7i7RjPsr0gNii8759y2bQ==> and paste it in the address bar of your browser.

If you did not request this mail, this means that somebody is attempting to log in with your credentials. We strongly recommend changing your password as soon as possible.

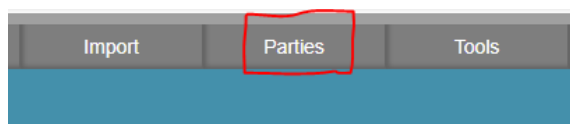

For further information or in case of problems, please contact the IDEP help desk.

Kind regards,
The IDEP help desk at CNA

Please use the same browser as where you initiated the process.

With this change in mind, it is of outmost importance that you have updated contact information in IDEP.WEB. This is because the authentication email can only be sent to the email-addresses that are registered there.

In order to update your contact information please go to the tag called "Parties" and thereafter to "PSI Parameters". There you will find all contact information available.

SCB

IDEP.Web data collection tool

Below you have a snapshot of the contact information details.

Please note that you have three cells below where three different email-addresses can be registered. One in the upper part and two in the lower.

You do not have to tick off any box for neither Intrastat arrival or dispatch in order to connect an email-address to the multi-factor authentication.
